SUMMARY

MCA graduate with hands-on experience in Python, Java, Flask, REST APIs, SQL, HTML, CSS, JavaScript, Git, and Power BI. Developed web applications and completed internships in Python Full Stack Development and Data Visualization, gaining practical experience in software development, database management, testing, and data analysis. Motivated to apply technical skills, contribute to software development projects, and continuously learn and adapt to modern technologies.

TECHNICAL SKILLS

Programming Languages: Python, Java.

Backend Technologies: Flask, REST API.

Web Technologies: HTML, CSS, JavaScript, React Basics, Bootstrap.

Database: SQL.

UI/UX & Design Tools: Figma (Wireframing, Prototyping, UI Design, Design Systems).

AI Tools: GitHub Copilot, Claude, Google Gemini, ChatGPT.

Version Control Tools: Git, GitHub.

Business Intelligence Tools: Power BI, Microsoft Excel.

SDLC Methodologies: Waterfall, V-Model, Spiral, RAD, Incremental, Agile.

Core Concepts: AWS Fundamentals, Manual Testing.

INTERNSHIP EXPERIENCE

Data Visualization Intern | Infosys Springboard

2025

- Extracted and cleaned 5,000+ election records from Election Commission PDF datasets using Gemini AI with 95% accuracy. Built 3+ interactive Power BI dashboards to analyze election trends across different Indian states. Used DAX formulas and Power Query for data transformation and relationship modelling.
- Used AI tools like ChatGPT and Gemini AI to reduce manual data cleaning time by 40%.

Python Full Stack Development Intern | IIDT & Blackbuck Engineers

2024

- Completed a Python Full Stack Development internship with hands-on experience in real-world development tasks and project building. Developed and enhanced a To-Do List application with additional features and improvements using branch-based development.
- Worked on frontend, backend, database integration, and version control as part of internship assignments and project tasks.

PROJECTS

Student Management System | Python Flask | MySQL | HTML | CSS | JavaScript | Render | [Link](#) | [Demo](#)

- Developed a role-based Student Management System for managing students, teachers, attendance, exams, fees, and announcements.
- Implemented authentication, teacher activity tracking, dashboard analytics, and student ID card generation using Flask, MySQL, and SQLAlchemy. Deployed the application on Render using GitHub integration.

Karnataka & Punjab Election Dashboard | Power BI | Excel | [Link](#)

- Created an interactive Power BI dashboard using 5,000+ election records from Karnataka and Punjab. Analyzed voter turnout, candidate performance, and constituency-level election trends.
- Automated data cleaning using Power Query, reducing preparation time by 50%. Added filters, KPI cards, and visual reports for better data analysis and insights.
- Used data from India Votes and Election Commission of India and validated reports using AI tools.

Manual Testing Project – AIVOA AI Platform | [Reports](#) | [Testing Video](#)

- Conducted end-to-end manual testing of the AIVOA AI web application to validate functionality, usability, and user workflows. Designed and executed 40+ test cases covering UI, functional, and validation testing scenarios.
- Identified and documented 4 defects with detailed bug reports, screenshots, and reproduction steps.
- Maintained test evidence and defect tracking using Excel sheets and cloud-based links for screenshots.
- Verified expected versus actual results and contributed to improving application quality and user experience.

E-MeatZ — Meat Delivery E-Commerce UI Design | Figma | UI/UX Design | [Link & Demo](#)

- Designed an end-to-end e-commerce experience covering homepage, product discovery, offers, product listings, and checkout. Created a consistent dark-themed visual identity with reusable design patterns focused on usability and customer engagement.

SuperCrypto — Crypto Payment App UI Design | Figma | UI/UX Design | Prototyping | [Link & Demo](#)

- Designed a mobile crypto payment experience covering onboarding, payment selection, checkout, and transaction confirmation. Built interactive prototypes with bottom navigation and mapped user flows to demonstrate the complete app experience.

EDUCATION

Master of Computer Applications (MCA) 2024 – 2026

Rajeev Gandhi Memorial College of Engineering & Technology, Nandyal | GPA: 8.39 / 10.0

Bachelor of Computer Applications (BCA) 2021 – 2024

National Degree College, Nandyal | GPA: 8.16 / 10.0

Board of Intermediate Education (CEC) 2019 – 2021

Rao's Junior College, Nandyal | GPA: 7.04 / 10.0

Board of Secondary Education (SSC) 2018 – 2019

Sri Shantiniketan E.M School, Nandyal | GPA: 8.8 / 10.0

CERTIFICATIONS

- Software Engineering & Agile Software Development — Infosys Springboard
- MS Power BI — Infosys Springboard
- Python Essentials — Cisco Networking Academy
- MySQL Basics — Great Learning
- Web Development — Eleven Ideas
- Soft Skills & Professional Communication — TCS-ION
